# WELCOME

Roy Cooper, Managing Director of Professional Security Magazine, welcomes you to **Security TWENTY 22 Glasgow** here at the Hilton Hotel in Glasgow. We have planned the day so that you can enjoy some excellent presentations from key industry people that are involved with the changing world in which we live. Whatever your subject of expertise, there should be something in the presentations for you to learn and leave feeling better informed. I would like to thank firstly exhibitors who have made the day possible with their contributions, and a special thanks to our sponsors Hikvision, BT Security Surveillance, CSL Dualcom, Dedicated Micros and IFSEC International. Please take the time to visit their stands as they too have new innovations you may not have seen before. I also would especially like to thank our key note speakers for taking the time out of their busy days to come and share their knowledge with you, but more to the point I would like to thank you for coming along. I hope you have a great day and look forward to welcoming you to our next event.

## NOMINATED CHARITY

As you may know, we aim to raise funds for local charities at each of our events and are especially keen to support charities which are close to the hearts of our exhibitors and delegates.

At Security TWENTY 22 Glasgow, we will be raising funds for **Chris's House** which offers support and advice around suicide awareness. So far Security TWENTY events have raised over £110,000 at the Charity Dinners!

Visit their website at:  
[www.chrisshouse.org](http://www.chrisshouse.org)

# SPEAKERS

## Matthew Holliday - National Security Inspectorate (NSI)

Matthew Holliday is the Director of Approval Schemes, at the National Security Inspectorate (NSI). Matthew has over 30 years' experience in the electronic security industry including 12 years representing the electronic security installation sector as a subject expert at BSI and CENELEC. Since joining NSI the premier not-for-profit UKAS accredited certification body operating in the Security and Fire Safety sectors in 2019, Matthew's responsibilities include managing forthcoming changes to NSI approval schemes, and providing technical expertise to the auditing team and approved companies.

## Mike Gillespie - Advent IM

Mike is an experienced, senior information security and data protection practitioner of many years' standing. He is well versed in the threat to organisational information assets. Having been a member of the CSCIS Global Cyber Security Select Committee for some time, he is now the Vice President of C3i Group on cyber security, cybercrime and cyber intelligence. He assists the organisation in continuing to promote thought leadership and awareness to a global audience on the current threats to organisational information assets emanating from cyberspace. Mike serves as a cyber spokesperson for the International Institute of Risk and Safety Management (IIRSM) and also as the Cyber Security lead adviser for the UK Government's Biometric and Surveillance Camera Commissioner. Mike is a retired Director of the Security Institute where he held the portfolio for Cyber Strategy & Research for several years. As a subject matter expert Mike is called upon regularly to speak at events and contribute editorial, including for the BBC and The Sunday Times as well as regular cyber and physical security and technology industry media. He is also part of the editorial board for Professional Security Magazine, a regular speaker at key events such as Security & Policing, IFSEC, SCTX and International Security Expo.

## Fortus

**FORTUS**  
We Trade in Trust

We are the largest privately owned, B2B security and fire distribution company trading across the UK & IRE within the key industry verticals of CCTV, Intruder, Access and Fire products. In addition, we have a nine branch network across England and are the only distribution company in the sector to offer a complete end-to-end security solution through our acquisition of Re:Sure monitoring intelligence. With more than 20 years' experience in technology distribution with key brands including Hikvision, HKC, Vanderbilt, Paxton, Texecom and Honeywell supplied under distribution agreements, we can support you with any size project.

# SPEAKERS

## Darrell Gilmour - Skills for Security

Darrell has worked in the fire and security industry for almost a decade starting his career as an alarm apprentice and installation engineer, later moving towards sales and design with well-known Kings Secure Technologies. In 2018 he took up a brief post with Marlowe Fire and Security gaining experience with varying markets and larger projects, before entering the educational sector with New College Lanarkshire as a Lecturer. Darrell holds a certified ISMI Security Management Professional Diploma in Security and Risk Management completed in 2018.

## Adam Richmond - Informa Markets

Adam is the Sales Director at Informa Markets for IFSEC International which is the leading security conference and exhibition, covering every aspect of security, from access control and video surveillance to smart buildings, cyber, border control and so much more. With access to thousands of security professionals, all ready to buy, IFSEC is the perfect place to grow your business. The event will take place at London ExCel on 17-19 May 2022 alongside FIREX International (fire safety), Safety & Health Expo, Intelligent Buildings Europe, Workplace Wellbeing Show and Facilities Show (facilities management). Registration is free and attendees will benefit from access to content and networking opportunities from all the events!

## Hikvision

Hikvision is the world's leading supplier of video surveillance products and solutions. Featuring the industry's strongest R&D workforce, Hikvision uses its state-of-the-art manufacturing facilities to design and develop innovative CCTV and video surveillance products. The company's complete product suite includes Smart IP cameras, HD analog cameras, speed domes, NVRs, DVRs, video management software, access control and alarm systems, encoders, decoders, and other elements of sophisticated security systems. Hikvision products serve a diverse set of vertical markets that includes retail, banking and finance, transportation, education, commercial, government, and residential applications.

## SPEAKERS

### Michael White - G4S Secure Solutions

With twenty years industry experience and a background in operational management that includes critical national infrastructure sites, blue chip city clients and diplomatic clients across a range of industry sectors Mike moved into compliance and risk management five years ago initially as a consultant and latterly with G4S. His experience includes working in the Middle East and he regularly chairs and presents at conferences both in the UK and in Europe. In addition to his G4S role Mike was a volunteer Director at the Security Institute, a former Chairman of IPSA and a member of The Court of Assistants within The Worshipful Company of Security Professionals. He currently also chairs the working group at the British Standards Institute reviewing BS 7499, is a member of the group reviewing BS 7858 and is working with the Security Industry Authority as a member of the team reviewing the licence linked training requirements for the security industry. His spare time is taken up with his allotment and as a frustrated Southampton FC supporter and an equally frustrated supporter of the French national rugby team.

### BT Surveillance Solutions

BT Surveillance Solutions is a leading supplier of highly effective and resilient end-end managed surveillance solutions. Our range of security & surveillance propositions offers high quality and highly reliable solutions to local government, police, transport and to private sector clients across the UK. We have a 25-year track record and expertise designing, delivering and maintaining very large converged CCTV solutions, including IP and analogue technologies and the integration of new and legacy equipment. Integration of 'Smart' digital technologies is a growing area for our business, including video analytics and sharing infrastructure delivering free WiFi, 4G/5G services and IoT meshed sensor networks. We provide the whole value chain of services from design systems integration, project management, installation as well as preventative maintenance and 24 x 365 in-life support. Taking Cities from 'Safe' to 'Smart'.
